### SKILLS

- ❖ Java , HTML, CSS, Javascript, Ejs
- ❖ React, Node.js, Express.js, MongoDB , Cloud computing

### EDUCATION

- ❖ Computer Engineering | Vidyalankar Institute of Technology *CGPA: 9.98 / 10 (Till Sem 4) | Expected Graduation: July 2027*
- ❖ XII (SSC) | Ramniranjan Jhunjhunwala College *84.5% | 2023*
- ❖ MHT-CET *97.93 | 2023*

### PROJECTS

- ❖ **WanderLust – Inspired by Airbnb**  
Wanderlust is a web application inspired by Airbnb that lets users create, browse, and review unique vacation listings around the world. Whether you want to share your space or find your next getaway, Wanderlust makes it easy and fun - Node.js, EJS, Bootstrap, MongoDB, Cloudinary, Leaflet.
- ❖ **Taxi Booking App – Inspired by Uber**  
A full-stack taxi booking web application that replicates Uber's functionality. It allows users to sign up, book rides, and track ride status, while captains (drivers) can accept or reject ride requests. The system includes real-time status updates and role-based interfaces for users and drivers - React, Node.js, Express, MongoDB.

### ACHIEVEMENTS

- ❖ Scored 77% in the NPTEL Programming in java Exam and earned a silver badge.
- ❖ Solved 260+ DSA problems on Leetcode and earned 4 badges.
- ❖ Won 2 coding competition in the College.

### EXPERIENCE

Participated in the Smart India Hackathon and successfully cleared the college round. Our team worked on an innovative solution to a real-world problem, focusing on practical implementation and technical skills. This experience improved our problem-solving, teamwork, and project development abilities.

Completed Cloud computing course from CDAC.
